

PPS100 – Discovery Workshop

A one-day on-site consultation designed to enhance any PrecisionPoint Business Warehouse training course; Typically a one-on-one consultation between PrecisionPoint and the principle power-user.

Prerequisites

Access to a network connected pc with XLPublisher installed and activated.

Audience

The PrecisionPoint Software project sponsor.

Goals

To enhance any PrecisionPoint training course by allowing vital input from the company's key contact and project sponsor.

To allow the PrecisionPoint training team to customise and tailor the subsequent training course to better satisfy a company's specific business reporting needs and focus the course on those needs.

To highlight any additional PrecisionPoint hyper-cube customisation which may be required prior any given training course.

To validate the data structures of the system prior to end user access.
